

Anza Aleem

Undergraduate Computer Systems Engineer

ABOUT ME

I'm a passionate undergraduate Computer Systems Engineer. Currently in 4th year of my bachelors degree. I have more than three years of experience in programming. I'm working on full stack web development. Besides Technology I'm working on my social skills and personal development.

SKILLS

- HTML, CSS
- JavaScript
- TypeScript
- PHP
- Bootstrap
- WordPress
- Angular
- Express
- Database management
- Responsive web development
- Data structure and Algorithms
- Poster Designing

PROFESSIONAL EXPERIENCE

• Internship at MUET FM

Web Development and Graphics Designing

June - July 2023

Developed and implemented the database of the website, reduced the headache of manual entries. Added functionalities like listing upcoming events, adding events. In Graphic designing I used to make posters and flyers for all events held.

• Freelancing

Upwork and Fiver

June 2022 - Present

I'm a freelancer at Upwork and Fiver, I make multi pages, responsive websites. I can make dynamic websites with different functionalities. I can create and manage database. For CSS I use Bootstrap. I have also command on WordPress. For frontend I'm working on Angular & Express for backend development.

EDUCATION

• Undergraduate Computer Systems Engineer

2021-2025 Mehran University of
Engineering and Technology
Latest GPA: 3.87 / 4
